Dear Attendees!

The People Event takes immense pleasure & feel honored in inviting the contributors across the globe to “World Recycling Convention” to be held during October 23-25, 2023 at Madrid, Spain.

The “World Recycling Convention” (Recycling Week 2023) meeting will take place in Madrid, Spain on October 23-25, 2023. With participation from various enthusiastic researchers including recycling specialists, environmental engineers, recycling experts, wastewater treatment researchers, climate experts, scientists, environmentalists, industry delegates and other related professionals from the field to attend this distinguished event which will be based on the theme “Scientific & Innovative Ideas to Sustainable Recycling into the Future”

World Recycling Convention is an exclusive International Recycling, Rubber, Petrochemicals, Chemicals, Fertilizers, Plastics Recycling, Printing and Packaging Industry Conference & Exhibition being held on an annual basis. The idea behind the conference not just to ensure bring the right people/industry stakeholders on board but also help to enhance and explore knowledge among Recycling and E-waste Management to establish corporations and exchanging ideas and also providing the right stage to present stimulating Keynote talks, B2B Meetings, Discussion Panels, Video Presentations so It will provide a deep understanding of social, environmental and technology, economic, trends driving the sustainability area and will help in implementing technology-driven results to key environmental problems.

This meeting will bring together the professionals from recycling, waste management, renewable energy and offers them a platform to initiate about the advancement of this industry. It expands the scope of development for all players and helps them to connect and interact with people from all walks of life. They will get a perfect forum to communicate and establish good relationship with their prospective counterparts and end users.

We hope this conference will play an important role in providing a platform in 2023 to exchange views and ideas on the theme that recycling, waste management & renewable energy should be for all.

We wish to see you at Madrid, Spain
Recycling Week 2023
Organizing Committee
Greeting to all!

On behalf of the whole organizing committee, I want to welcome you to the Recycling Week 2023. This year, we organized I complete set of presentation on a subject that became highly important for future generations: sustainability. To achieve this goal, recycling is a major part which needs more developments and investigations from different fields including engineering, science and technology with collaboration with other sectors of activity such as economics and social aspects. This is why people from around the globe will gather in Madrid (Spain) on October 23-25 2023. The conference will cover a wide range of different areas including additives, materials and processes. It will be a forum for discussion and a great opportunity to link with people having similar and/or complementary interests.

I hope to see you in person and have the chance to discuss the future of this important field of activity.

Prof. Denis Rodrigue, ing., Ph.D.
Canada

Yiu Fai Tsang
The Education University of Hong Kong, Hong Kong

Nilofar Asim
National University of Malaysia, Malaysia

Recycling Week 2023 | 23-25 October, 2023
https://recycling.thepeopleevents.com/
ABOUT MADRID, SPAIN

Madrid is the capital and largest city of Spain. The population of the city is roughly 3.3 million and the entire population of the Madrid metropolitan area is calculated to be around 6.5 million. It is the third-largest city in the European Union, after London and Berlin, and its metropolitan area is the third-largest in the European Union after London and Paris. Madrid has a lot of interesting attractions that offer both culture and amusement. The city is full of great monuments, like the royal palace, the Plaza Mayor or the many statuettes, and for people interested in art, the museums Del Prado, Reina Sofia or Thyssen have some of the most fantastic collections of famous Spanish painters like Velazquez, Goya, Picasso or Miro.

The Madrid-Barajas Airport is Spain’s busiest airport and the second largest airport in Europe. As the capital city of Spain, Madrid is unsurprisingly rich in cultural history. At only twelve kilometers from the center of the city, and with numerous transport options available, it makes sense to drop off your luggage and explore, even if only passing through. One of the easiest ways to do this is by using the Metro line and once you hit the city there are plentiful luggage storage lockers close at hand.

City Highlights
The conference is soliciting literature review, survey, business case study and research papers and comments including, whilst not limited to, the following areas of interest:

- Agriculture and Food Waste Recycling
- E-waste recycling and management
- Energy from Organic Waste
- Glass Recycling
- Industrial and Chemical Waste Recycling
- Marine Plastic Pollution
- Medical Waste Management
- Nuclear Waste Management
- Oil Recycling
- Paper Recycling
- Plastic & Recycling Technology
- Quality of Recycling
- Recycling – Reduce, Reuse and Recovery
- Renewable Resources and Renewable Energy
- Waste to Energy
- Waste Water and Energy Management
- Zero Waste Concepts
- Plastic additives
- Advanced recycling
- Operations, Fleet & Safety
- Recycling & Landfill
- Business Insights & Policy
- Technology & Innovation
This meeting will focus on more than 20 different themes and each oral talk will last up to 20 minutes. Poster presentations will have only 10 minutes to present their work, and there will be 05 minutes available after each presentation for questions and discussion.

REASON TO PARTICIPATION

The Recycling Week 2023 is a 3-day global conference that will host some of the most eminent names in the recycling and renewable industry to stimulate dialogue, fuel collaborations, and expand frontiers of knowledge. It comprises achievers and experts who are well-known names in the recycling, waste-management, renewable and green energy industries. We endeavor to offer a platform for networking and growth opportunities within an elite group of established individuals and companies.

1. Build Your Brand
   Raise your profile in front of an international audience and establish your brand as the ‘go-to’ name in your field

2. Nurture Relationships
   With 73% of visitors having purchasing power, this is your chance to form valuable new business partnerships and strengthen existing ones

3. Show Your Products
   Launching a new product? Promoting an innovative new solution? Fi Middle-East is the perfect place to demonstrate exactly what your brand can do.

4. Enter New Markets
   With 20,000+ visitors expected from more than 135 countries around the world, don’t miss your chance to access an even wider audience and expand into new territories.

KEY TAKEAWAYS

▷ A cutting-edge and highly engaging content programme, informed by our own specialist journalists and external experts.

▷ A simple show layout, making it easier for you to access all areas of recycling & renewable events and our co-located shows.

▷ The innovation scheme, offering an easy way for you to identify some of the most innovative new products coming to market.

▷ The 2023 meeting provides a great opportunity to connect with top researchers, faculty experts and industry thought-leaders.
