In light of the success of the first editions of this annual conference series on Recycling week, The People Event takes immense pleasure & feel honored in inviting the contributors across the globe to “3rd World Recycling Convention” scheduled to take place in Barcelona, Spain from October 29-31, 2025.

The “3rd World Recycling Convention” (Recycling Week 2025) meeting will take place in Barcelona, Spain on October 29-31, 2025. With participation from various enthusiastic researchers including recycling specialists, environmental engineers, recycling experts, wastewater treatment researchers, climate experts, scientists, environmentalists, industry delegates and other related professionals from the field to attend this distinguished event which will be based on the theme “Reduce, Reuse, Recycle: Challenges and Creative Solutions” World Recycling Convention is an exclusive International Recycling, Rubber, Petrochemicals, Chemicals, Fertilizers, Plastics Recycling, Printing and Packaging Industry Conference & Exhibition being held on an annual basis. The idea behind the conference not just to ensure bring the right people/industry stakeholders on board but also help to enhance and explore knowledge among Recycling and E-waste Management to establish corporations and exchanging ideas and also providing the right stage to present stimulating Keynote talks, B2B Meetings, Discussion Panels, Video Presentations so It will provide a deep understanding of social, environmental and technology, economic, trends driving the sustainability area and will help in implementing technology-driven results to key environmental problems.

This meeting will bring together the professionals from recycling, waste management, renewable energy and offers them a platform to initiate about the advancement of this industry. It expands the scope of development for all players and helps them to connect and interact with people from all walks of life. They will get a perfect forum to communicate and establish good relationship with their prospective counterparts and end users.

We hope this conference will play an important role in providing a platform in 2025 to exchange views and ideas on the theme that recycling, circular economics & renewable energy should be for all.

We wish to see you at Barcelona, Spain

Organizing Committee
Recycling Week 2025

- Recycling – Reduce, Reuse, and Recovery
- New Outlook for Sustainable Recycling
- Revolutionizing Plastic Recycling
- Textile Reuse and Recycling
- Circularity in Action
- Battery Recycling Innovations
- Next-Generation EV Battery Recycling
- Global Paper Recycling
- AI, Robotics, and Automation
- Energy from Waste
- Digital Recycling Revolution
- Renewable Resources & Energy

Recycling Week 2025 is the place for all recycling specialists, environmental engineers, recycling experts, wastewater treatment researchers, climate scientists, and industry delegates. This global Conference is where executives and business professionals meet the best and brightest innovators in Recycling, Circular Economy and Engineering Technology.

The conference will facilitate the Sustainability Directors/Managers, Waste Management Executives, Association Representatives, Entrepreneurs and Startup Founders and Program Directors, those, who are functioning their research work in the Food science domain, Recycling, Rubber, Petrochemicals, Chemicals, Fertilizers, Healthcare, Plastics Recycling, Printing and Packaging Industry with valuable deliberations in order to make the results more representative. The program is divided into three days, each day focusing on a specific topic, and contributions to this colloquium will also present practice-oriented research as well as research on teachers' professional development.

Target Industry

Purchase Officers of Recycling Companies
Corporate Executives
Developers
Architects
Consultants
Engineers
Procurement Managers
Infrastructure Managers
Energy/Waste/Resource Managers
Incubators
Start-ups
Consultants
Entrepreneurs

Growth and Advanced Cleantech Companies
Education Providers
Government (Local, State and Federal)
Large Infrastructure Project Management
Policy and Planning Managers
Sustainability Managers
Economic Development Officers
Venture Capitalists
Finance Managers
Sustainability Managers
Green Investors
Superannuation Funds

Who Should Attend?

Sustainability Directors/Managers, Waste Management Executives, Technology Developers/Engineers, Supply Chain Managers, Packaging Specialists, Product Designers, Corporate ESG Officers

Entrepreneurs and Startup Founders, Business Development Managers, Policy Makers/Regulators, Management Officials, Association Representatives, Consultants, Professors, Faculty Members, HOD/Chair, Researchers, Research Scholars, Lecturers, Environmental Policy Academics, Engineers, Postdoctoral Researchers, PhD Candidates, Program Directors, College and University, Presidents, Policy Makers

ORGANIZING COMMITTEE

MEMBERS

André Vanyi-Robin
Founder & CEO, Plastiks

Bernardo Nicoletti
Professore corso Digital Supply Chain,
Rome

Camilla Carrara
ZEROBARRACENTO, Italy

Denis Rodrigue
Université Laval, Canada

Dr. Marc Marín
Universitat Rovira i Virigili (URV), Spain

Elza Bontempi
University of Brescia, Italy

Enrico Paris
IT Engineering and Agri-Food
Processing Research Center, Italy

Hyden Solan
Strategic Director of Communications
Race to Zero Waste Madrid, Spain

Julia M. Puaschunder
Columbia University, USA

Neil Shackleton
Founder of Medoola

ABOUT BARCELONA, SPAIN

Barcelona is an ideal destination for hosting international events like the Recycling Week 2025. As a vibrant Mediterranean city, Barcelona offers a blend of rich history, cultural diversity, and modern infrastructure, making it perfect for conferences and exhibitions. It boasts a unique charm with its stunning architecture, iconic landmarks like La Sagrada Familia, and a thriving culinary scene featuring authentic Spanish and Catalan cuisine. Known for its innovation and business-friendly environment, Barcelona has become a leading hub in Europe for science, technology, and research. With a strong emphasis on knowledge-driven activities, Barcelona supports over 5,000 international companies, making it a strategic location for global business events.

The venue of Recycling Week 2025, Barcelona is a known entrepreneurial and business-friendly city. Thanks to its long business and commercial tradition, Barcelona is today one of the most important cities in Europe for doing business. International companies are increasingly deciding on Catalonia and Barcelona for their investments in Europe. Modern and easy connections by plane, roads and maritime transportation ensure a broad market reach within 24 hours. Barcelona's El Prat airport is the largest airport in Spain in terms of passenger numbers and one of the biggest in the whole of Europe. It is also an important hub for scheduled airlines with direct connections to the United States, Canada, South America, the Middle East, Asia and Africa.

- Hear from world-class Speakers, Delegates, and from industries about the top areas of recycling and engineering
- Take time out of your busy schedule to accelerate your knowledge of the latest advances in recycling industry
- Be the first amongst your peers to grasp opportunity that will impact the businesses in the next couple of years
- Take advantage of and chose from another 80+ talks, tutorials, and panel discussions at Recycling Week 2025
- Learn directly from top decisions makers what works and what doesn't
- Connect and network with businesses, consultants, and start-ups
- Meet with peers and professionals looking to collaborate, connect, and grow together
- Get access to other focus area content including recycling, rubber, petrochemicals, chemicals, electronics, plastics recycling, printing and packaging industry
